Flowers Are Calling

Synopsis

Flowers are calling to all the animals of the forest, "Drink me!" but it's the pollinators who feast on their nectar. In rhyming poetic form and with luminous artwork, this book shows us the marvel of natural cooperation between plants, animals, and insects as they each play their part in the forest's cycle of life.

A Look Inside How the Book Was Made - From Sketch to Final Art Sketchbook

It all starts with good, easy sketches and doodles. Nothing serious! Bear Each book I do is a little different. For this one, I did a lot of early work on the computer, like this... Flowers ...and this. Notice how some of the early art is almost finished and other art is still very loose. I also integrate the words at this stage.

Flower and

Bird I sketched a lot of flower and animal studies to get that right balance between something that looks real and something fun. Watercolor I then made a lot of watercolor sketches like this...
