Customer Reviews

The illustrations are really nice. Beautiful. Our 3 preschool daughters are very into fairies right now and they LOVE this book. They love the stories associated with all the flowers. Part of me would think the book would be a bit old for them, but not at all. They love it and want to read it over and over and over.

My 5-year old enjoyed this introduction to the flower fairy friends. It takes the lovely drawings of Cicely Mary Barker and places them with photographs of flowers, and combines them in different ways. It is neatly done. The text describes the different fairies and what their personalities are like. It is sweet but uninspired. We're looking forward to reading others in the Flower Fairy Friends series.

Wonderful illustrations, and lots of good information to take you into a world of fantasy. My grand daughter loves to talk about it.

I purchased this book used. Usually I have pretty good luck. This time I was very disappointed. The inside cover was totally scribbled in & a kids name. This was not mentioned when I purchased it.
