## Customer Reviews

we love Magic School Bus, Ms. Frizzle and the class. We use MSB books, science kits, videos and lapbooks for our science curriculum and we are all learning SO much! Nothing like a little adventure to help us learn!

It's written in a mature, factual way, but very palatable for a young reader. I bought this for my 4-yr-old because of his love for weather, and it's appropriate for his age, but could easily work for

kids up to 8 or 9. Beyond that, in my opinion, a kid could probably use something a little "meatier."

When it says on the product page "Read with our free app" I assume that is exactly what it means. However, when I try to download it with the free Kindle app on my Mac, it says "The item is not compatible with this device." Get with the program, , and make sure the script on the product page doesn't automatically piss off your customers. Putting in for a refund.

Hey I really like it because it teach me a lot of stuff that I really didn't know so thank you Joanna Cole thank you :):):)
