Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

My 2 year old granddaughter really enjoyed "Are you an Ant?", it helped her to not panic when she sees ants marching around on her toys. It's the kind of book that she will have in her learning part of her bookshelf for many years to come.

Great book, arrived in great condition, even learned a few things about the ant. Great gift companion for an Ant Farm my nephew is getting for Christmas... Great introduction to the wonderful world of ants.... I now know I not an ant....

I purchased this for my child's kindergarten class and they love it. Interesting facts that the author relates to people. Good book and fun to read.

Excellent resource for curriculum unit on ants, social insects, cooperation. Good drawings, clear,

and concept specific.

Was having a camp with my 3.5 and 4.5 great nephews. Part of it was learning about insects. The book was pretty informative, good for their age and they seemed to like them. They picked it to be read more than once the week I was there.

Entomology with a whimsical touch. Allen talks directly to the reader in a very engaging way. My preschool son was completely drawn in. Whenever I'd read the first line "Are you an ant?" he would yell "No!" "Are You a Butterfly?" and "Are You a Ladybug?" are also good.

I used this in my second grade classroom. My students were completely engaged in the story and even more amazed at the things they learned about ants from the book. I highly recommend this book.

My 5 year old loved this book! Lots of great facts (some that I didn't even know). He has an aversion to grass because he is afraid of ants. This book is a really interesting first look at the world of ants.
