# Ideas That Changed The World

## Synopsis

From bicycles to umbrellas, the Walkman to bar codes, innovative ideas can mold the world in unexpected, fantastical ways. *Ideas That Changed The World* takes some of the most important ideas in history and displays them using stunning photography and detailed information. This VOYA Nonfiction Honor List and IRA Young Adult Choice 2011 winner brings the stories of great ideas to life in their historical context, sharing how they were inspired and then implemented. Readers will be in awe as they learn about satellites, antibiotics, microscopes, film animation, surfboards, submarines, TV, and more. *Ideas That Changed the World* takes the stories of the most insightful advancements in history and shows how these innovations affect us all.

## Customer Reviews

As soon as I saw this new title in the DK Canada Fall catalogue, I knew that it will be of interest for some people in my family. Believe it or not, as I was readying myself to write this review, I couldn't put my hand on it. Where did it disappeared? I couldn't figure it out. I was sure I had left it in the living room... so where was it now? Obviously I couldn't write the review that day but when I went to see my oldest son to say good night that evening I found the book on the floor next to his bed. He had took it in order to read it. I was really glad to see that the book has caught his interest. The next morning, as I came downstairs to eat breakfast, I caught him sitting on the sofa reading the book.

That's how good the book is because he can't stop himself reading it...What is the book about? Well, essentially the book will present you all the inventions that literally changed our world. The book is divided into six sections: Genius: This section presents inventions that has been made and helped us in various ways. You will read about the light bulb, penicillin, x-ray, tin can, telegraph and many other inventions. Great Gizmos: How can things make our life easier? Well explore this section in order to learn more about things we could not live without nowadays - like elevators, refrigerator, flushing toilets, batteries and more. Handy Gadgets: Gadgets are always fun to have. But where do they come from? Microwave, digital camera, credit card, bar code, post-its, zipper are only a few of the ideas presented in this section. On the Move: In this section you will read about things that take us to places like submarine, helicopter, bicycle, and more.
