My small group (4 women total) found this book and have been using it for our weekly small group. Bobbie Wolgemuth is a gifted and honest/real writer. Nothing 'flowery', she just asks the good questions and tells things like they are. The study is 7 weeks and the subjects are: First Things First: A Mom's Priorities Praying for Our Kids Being Obedient - and Teaching Obedience Discipline: Do the Right Thing Growing Christlike Character You've Got a Friend Launching Our Kids Toward Their God-given Dreams The study is formatted in a way so that you're not just re-hashing the questions you answered when you meet to discuss. There are 5 'Mom Time' lessons to do for each chapter. They usually have 4-6 questions, include looking up and reading scripture passages, and end with a prayer. At the end of each chapter is then a group section - 'Lean on me: Learning from One Another'. This section contains 5-6 questions to discuss with subjects from the lessons you did

during the week. There is also a 'Bringing it Home' section that gives some insightful ideas for how you might put this week's lesson into practice in your home. There is a Lean on Him: Learning to Trust God section that closes each session that includes prayer and praying for each other. There is also a Review of the 5 lessons from that week and a simple family project following the lesson as well. Overall, this is a great study! The women and I all have children under 2, so some of the questions and applications don't quite apply yet, but we've still have very good conversations around these topics and will appreciate the advice later down the road. I'd highly recommend this study to women seeking to challenge themselves to be better wives and mothers - and most importantly, children of our one true God.

I had ordered this from in 2010 and got it within a couple days...loved the price! I absolutely loved this Bible study! My best friend and I were first-time mom's and were looking for a Bible study that she and I could do together and I am so glad I came across this study. It's very in depth and scripture focused/based...keeps you interested and really grows you spiritually in so many ways...not just as a mom! What I also really like is that, while there were a few things that I could not connect to 100% when I first did the study (because my daughter was a baby and some questions were directed to mom's of older children)- it seems to be fitting to mom's of children of all ages and in any stage of their walk with God. I would actually recommend this to Women who aren't even ready to have children yet. It gives great insight into what God calls women to do/be as mothers. Really helpful on how to approach/handle certain situations...but most importantly put God first in everything. Since it seems fitting for mom's of all age groups-- it is a study you can do over and over again over time. It will help you continue to grow over time....being a mom has it's own stages as our children grow and bring us new challenges and experiences :)

We did this book for our moms Bible study and enjoyed it - light and easy to work with. We didn't buy the moms Bibles to go with it and did just fine. There are only a handful of questions pertaining to the moms Bible that really aren't needed. It's broken into 1 week sections. We studied a week over the course of 2 weeks and met every other week to discuss. I'd definitely recommend the study for busy moms and new Christians.

I have recently been doing my bible studies in a bible called Mom's Bible: God's Wisdom for Mothers. Traditionally I have used a NIV version of the bible. This particular bible is in the New Century Version. There is a difference in the text. The NIV is definitely not written in modern

language. The New Century is written with modern words and language. It is very easy to read. The meaning of the text is not lost in this translation. In the introduction it mentions that the authors of the New Century Version worked off of the original Greek and Hebrew text. The Mom's Bible has great features. *There is a feature called Insights. They are text boxes scattered throughout the bible. They really help you apply the passages they feature to your everyday life.* There is a feature called Wonderful Counselor that has insight from Christian therapist on tough issues. I really loved the essay on How to Be a Good Mother When You Weren't Mothered Well. It is linked to Isaiah 41:10: "So don't worry, because I am with you. Don't be afraid, because I am your God. I will make you strong and will help you; I will support you with my right hand that saves you." *There is a feature called Our God Is that works on building your knowledge of God.* There is a feature called Walk In that looks at having balance in your life. *There is a feature called Moms in the Bible that helps you sharpen your understanding of your role as a mother.* There is a feature called Passing It On that helps with you principles you want to teach your children. There is so much to this bible. If you have a busy mom who loves the Lord, this would be a great book to have.

This book is so helpful. It has great applications. There is a lot of Bible research required which I love. It helps me have Biblical application to how I lead my life and discipline my kids. I recommend it for everyone!!!

Great book for a bible study. Enjoyed the structure and thought provoking questions.

Not very deep. Many of the messages are supported by very random one sentence verses. Some are referenced by actual people and their life examples which are more relevant. This book assumes the reader is a new parent is from a traditional family with a husband. Many in our group were divorced and found sections of this book awkward.

This is a wonderfully written study to lead mothers in a deeper relationship with the Lord and her children. The author provides straight-forward studies that are not too cumbersome for a busy mother.
