# A-Life For Music: Music And Computer Models Of Living Systems (Computer Music And Digital Audio Series)

## Synopsis

Artificial Life, or A-Life, aims at the study of all phenomena characteristic of natural living systems, through computational modeling, wetware-hardware hybrids, and other artificial media. Its scope ranges from the investigation of the emergence of cognitive processes in natural or artificial systems to the development of life or life-like properties from inorganic components. A number of musicians, in particular composers and musicologists, have started to turn to A-Life for inspiration and working methodology. This edited features thirteen chapters written by specialists in this exciting field, and includes a CD with various examples music related to A-Life.
