Quiero A Mi Mama Porque (I Love My Mommy Because Eng/Span Ed) (Spanish Edition)

Synopsis

"I love my mommy because she gives me great big hugs." "I love my daddy because he takes naps with me." These two beloved, best-selling concept books, richly illustrated by Ashley Wolff, are now available as board books for small hands. The youngest nursery tots will appreciate how phrases and actions from their own experiences also apply to animal babies. Each book begins with an affectionate scene between a human parent and child, but moves on to care giving in animal families. "She listens when I talk" shows a mamma cat and her mewling kitten. "She tucks me in" features a kangaroo with her joey peeking out of her pouch. "He sings me songs" shows a gray wolf and his cub. In concept, text, and art, these are among the most warm and reassuring lap books ever.

Book Information

Age Range: 1 - 3 years

Board book: 22 pages

Customer Reviews

we have both the mom and dad versions of this book. they are different. i was afraid the story would be the same in both but one says mom and one says dad. but there are different reasons to love mom and dad in each book. it is a board book so great for my toddler. we love that it has both languages so either my husband or i could read it to our son without having to buy 2 books as we do with so many others. we also like all the animals in the books. it tells you what each animal is called its baby version, e.g. cub. so you can use the book in a variety of ways with your child, e.g. read it, teach the animals or ask him/her to point animals out to you. the one knock: one of the

reasons to love mom is that she's not afraid of the dark. we feel this is teaching the child that s/he should be afraid of the dark. my husband skips this page or changes the story. other than that, we love the books.

You don't have to speak Spanish to enjoy this book. The drawings are beautiful and the words on each page are really touching. My 2-year-old son loves to identify the animals in the pictures and who could argue with sentiments like "I love my mommy because she keeps me warm and safe." I would highly recommend this book to anyone! The words are all printed in Spanish and English, including the names of the animals on each page.

I'm an English speaker, but I bought the English/Spanish version because the text is so simple and not engaging enough to read hundreds of times in my own language. Reading it to my son in Spanish keeps it interesting for me, and it's good language development for him. The Spanish translation is dominant, with the English written in much smaller font underneath. There are translations of all the pictured animals. On each page a baby animal explains why he loves his mother (she feeds me when I'm hungry, she keeps me nice and clean, she comes when I call, etc. The charm of this book is the images of the animal mother/child pairs doing their versions of these same things that we do. I find myself relating to these wonderful animal mommies and imagining the love between them and their babies! The book was published in 1991, and yes, the images do seem dated, but it's easy to look past that. My one complaint is the spread that reads "I love my mommy because she is not afraid of the dark." My son is too young for it to occur to him to be scared of the dark, and I don't need a book to introduce that idea to him. Instead I read "I love my mommy because she tucks me in at night" (the image is a serene moonlit scene of a animals nesting down in the forest). There is a

I love this book, the illustrations are so rich and beautiful it captivates children of all ages. The phrases are simple and children can understand very well what is happening even if they don't understand the words. I read it to my 5 and my 2 year old, they love all the little critters in it. I decided to buy because it was always checked out at the library. There are so few books in Spanish for children that are well translated, engaging and fun to look at, this and Quiero a mi papa porque... are two of the best ones out there.

I love this book! I read it to my 4 month old in Spanish and English. I really like that it uses different

animals than what is normally in a infant book so I am exposing him to different vocabulary. I like how the reason for the loving the parent matches what the animals are doing in the picture. The Spanish translation is accurate. Also if you are thinking of buying the dad version it is a good choice because they have different animals and different reasons for loving dad.

I was happy to see this book is very high quality for the price. It has beautiful pictures and the messages are wonderful. I got this book for a friend's baby but after seen it I decided to get one for my daughter.

A beautiful board book, I love that the animal names (particularly the obscure ones, as well as the appropriate translation for the name of the baby animal depending on the species) which are clearly specified on each page.

This is a cute book but I really wish it were more bright/colorful. The colors are a little dull and I honestly don't gravitate towards it when we pick out a book to read. I do love the Spanish language so my daughter's Colombian nanny can read to her in a language she knows best.
