## Customer Reviews

I have bought many of the books in this series. I use them with my ESOL students and they are an excellent resource. I like the breakdown of "people," "land," and "culture." The books provide a good mix of geography, history, scenery, customs, food, religious holidays, music, food, etc. Good photos, and the writing is strong enough to be of interest to adults but not so heavy that it chases away middle school or high school readers. I also really like the selection of countries. The series includes some of the biggest and best known countries (major European countries like England, Spain, and Italy; China; Brazil; etc.) but it also includes lesser known countries like El Salvador. Excellent series.
